# The 5-Ds Approach

## Deliver

Deliver the innovation in a concise pitch deck.

5

## Discover

Problem statements in the domain of interests.

1

## The 5-Ds approach

4

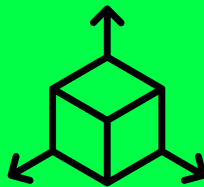

2

## Develop

Build a ready to use/present MVP using top AI tools.

3

## Define

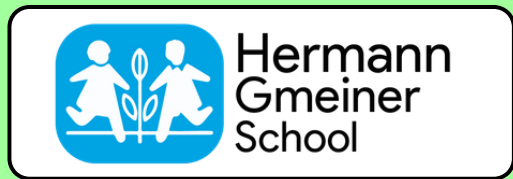

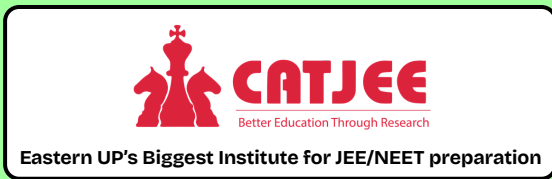

User centric thinking for problem understanding.

## Design

Feasible solution for users.

# The Vision Partners

## COMMENTS

The best part was the practical, hands-on approach. It pushed me to think clearly, refine ideas, and see how real startups actually take shape.

**Aradhya Agrawal 11th Grade**

The way complex ideas were explained in a simple and practical manner, which helped me think beyond textbooks and focus on real-world problem solving

**Shaurya Verma 9th grade**

The one thing I like most about the KYC Idea Tank bootcamp was how mentor's make serious learning feel productive and enjoyable. They guide with some fun to keep everyone fully engaged

**Ansh Sharma 11th Grade**

That we are allowed to tell about our idea whether it is good or bad. And shreeyanshu sir's mentorship the most that attracted us towards KYC .

**Shraddha Singh 11th Grade.**
